Welcome to Boudica Events and Management. We at Boudica pride ourselves on our unique understanding and in depth knowledge of the events and management industry.

Boudica, founded in 2011 by company director Shivon Bollers began life as Boudica Security. It was Shivon's intention to establish a leading market brand built around her specific approach to security, an impeccable working practice and the bravery to challenge industry status quo. This innovative approach quickly established Boudica as the go to business for any client looking for a reliable, friendly and forward thinking security company, but more than just security Shivon found that clients were increasingly looking to her for her expertise and advice on all aspects of event management. These formative years spent on the front line of security services managing events, venues, dealing with venue owners and handling the specific requirements of artists, set Shivon and Boudica on a natural course of evolution and growth, culminating in the creation of a new business able to cater to all her clients growing needs, Boudica Events & Management.

We provide a full range of services. All aimed at fully supporting our client's requirements, from a smiling face on reception, to event management, security or photography services - our highly trained team will provide precisely the right skills to match your needs.

People are at the heart of our success, so in each and every one of our contracts we pay particular attention to candidate placement, ensuring that our team members strive for service excellence across all market sectors. We have built long-term relationships with our clients, based on trust and attention to detail.
