commercial and business buildings we work with is to clean their carpets on the weekend, after the working hours or on Bank Holidays. We do it at no extra cost. Because our aim is to suit our clients' needs and meet their expectations. For residential premises the work is performed on a specific day and time according to customers' personal requirements. Our staff is not only competent but very friendly too and will give you an advice on how to maintain your carpets and keep them fresh and nice looking longer.

### **Experienced & Insured Operatives**

For the End of tenancy cleaning we provide only experienced operatives. We know how fast and efficient we must be in order to finish the job and to please the customer. Cleaning a property after tenants, no matter if it's a residential or a commercial property is such a tough job insisting only trained cleaners. At Miss Merry we know pace is important, but our main goal is to pursue perfection and leave spotless premises when we're finished. Rely on us, we will do it! Very often people combine the end of tenancy cleaning with another cleaning service of their choice. As an example most commonly they go with carpet, upholstery and window cleaning. However if the landlords are the people coming back to use their property they prefer to book what we call our steam cleaning services London and use them for their blinds, mattress and curtains. Anything you need we are there to help!

### **Discounts & Treats For Our Many Happy Customers**

We often run promotions and campaigns for regular and new customers in London. Our goal is to help and meet your expectations, not only to get your money. Sometimes a discount or an offer could be a very nice treat. We also have a gift card available for purchase so you could buy it and give it to a close friend as a present, just because you're nice. We care for our clients and feel obligated to help!

Miss Merry supports recycling and believes in the gifts the Mother Nature gives. We appreciate the Earth and try our best to keep it from harm, we do what we are capable of. We think green and that's why we recycle. We don't think dividing our rubbish takes a lot of effort and that's why we motivate our clients and staff to do the same. If more people stand behind the cause of recycling the Mother Nature will send us more gifts – food, water, air to breathe, basically everything we can't live without. Pollution is one of the main problems in today's society. It can cause a lot of danger, spread disease and be very harmful. Let's grab our hands together and try to prevent that, in the name of the Earth! Start now with Miss Merry!
