Welcome to the Wimbledon Cleaning Company, the domestic window cleaning specialists covering Wimbledon, Putney and all nearby locations in the South West London area. If you've been looking for a window cleaner who really treats your property like their own, we'd love to hear from you. We're here to provide you with a complete service which can also include conservatory cleaning, driveway cleaning and gutter cleaning.

Through the use of modern, innovative and environmentally-friendly technology, our technicians can leave the windows and frames of your Wimbledon or Putney home completely spotless.

Our domestic window cleaning, driveway cleaning and gutter cleaning services provide results that will be the envy of neighbouring property owners.

Established in 2014, we have now evolved from being a simple window cleaner to being the first-choice company for supporting cleaning services in the Wimbledon and Putney areas. Today, we can undertake driveway cleaning, patio cleaning, conservatory cleaning and gutter cleaning work just as easily as we can provide domestic window cleaning services.

All technicians are fully trained in our cleaning processes. We use modern equipment which allows windows to be washed from the ground. The same equipment reduces risk of injury and potential damage to property.

Our company pioneers the Pure Water and Sky Vac systems. Full training courses are provided for all staff members. Health and Safety practices are monitored at all times. Technicians arrive at your property smartly presented in our own uniform.

We deliver a friendly, personal and flexible brand of service. Contact us easily by text, by phone or by email. Weekly, fortnightly and monthly visits can be provided based on your needs. Customer satisfaction is always a priority and we welcome your feedback.
