XCAP Global are an independent, owner-managed global consulting firm, offering regulatory and compliance services to financial services firms and individuals. We work with start up investment companies globally, FinTech platforms, fund managers, corporate finance advisers, family offices and US fund managers seeking to establish a European AIFM platform.

Headquartered in London, United Kingdom, we work with our clients by deploying our extensive knowledge in compliance, MiFID II, AIFMD, UCITS, regulatory and operations to accomplish our common objective.

Our values and company culture has been built around offering a truly client-centric service, offering a global service and catering to clients in multiple time zones to empower, innovate and encourage growth for our valued partners and clients.

As an industry specialist, promoting best practice among our stakeholders and clients, we serve financial services firms of all sizes across different jurisdictions in Europe, USA, Latin America, Middle East, Asia and Far East – ranging from hedge funds and private equity firms to family offices and FinTech companies, including all other firms who operate under a regulatory model and may require compliance services.
